

BADUJET Turbo Pro

Innovation, performance and sophisticated design combined.
Welcome to the limit.

Field of application

For mounting into walls of all pool models, up to a wall thickness of 7 mm, except for round pools.
For performance oriented professional workouts, relaxation, rehabilitation training, fitness or leisure.

Design

The built-in main housing uses innovative propeller technology to draw water in via the cover and return it to the swimming pool with a powerful stream. The system is driven by an efficient, fanless, fully encapsulated permanent magnet motor.
Power control as well as switching the power on and off is carried out via the integrated piezo buttons or a remote control.
